

Nordix Association for open source collaboration

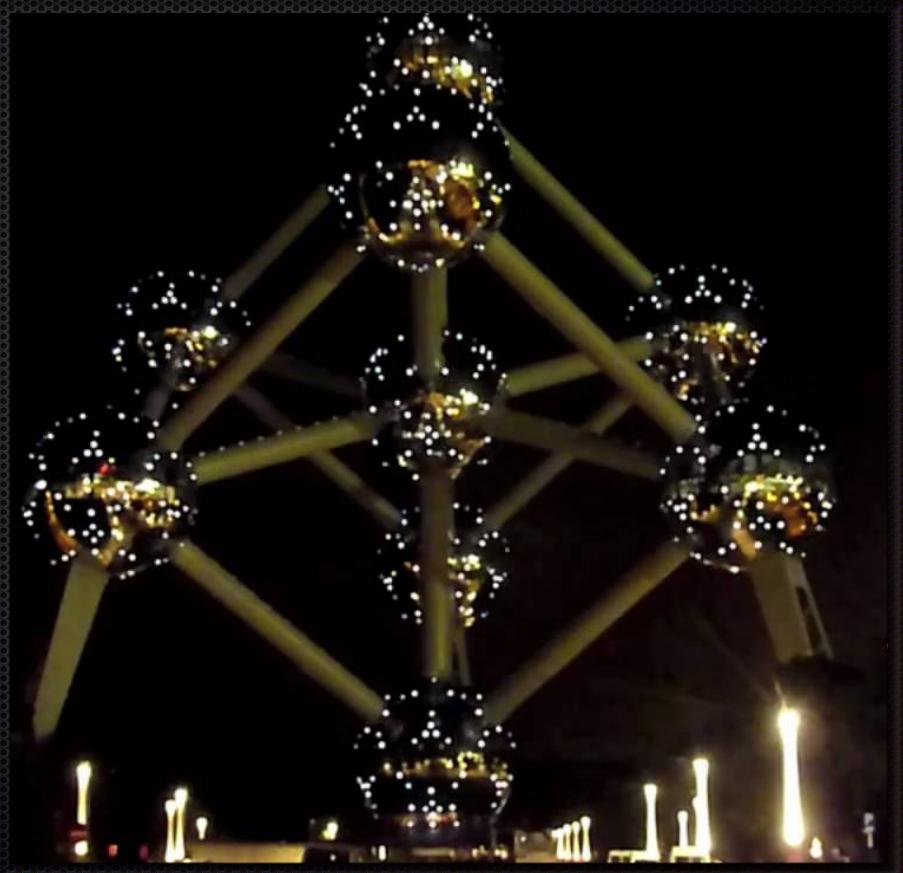

... to encourage the growth of the local open source community, helping people and organizations learn how to benefit from open source innovation and effectively participate in the global open source ecosystem.

Member brief

Nordix Association

- Established in Belgium,
100% European as a foundation for a broader
open source ecosystem
- Building on the work of the Nordix Foundation,
with a greater focus on European collaboration
 - Increased Academic focus
 - Regional open source group engagement
 - European research and govt relevance
- Launching with both new and existing Nordix
members

Renewing our focus on collaboration

Focusing on people
Prioritize individual contributors
lowering the barrier to engagement

Focusing on collaboration
Offer a platform/forum for collaboration
Recognized in the open source ecosystem

Networking and Events

Drive Nordix and member recognition through online and in person (when possible) events

Engaging with our local ecosystem

Running community education and coaching sessions

Launching an open source project

- from: hello-world all the way to openstack/eclipse/chromium/linux

Understanding upstream development

- getting what you want from an open source project

Technical/community expertise (coaching)

Community engagement (collaboration)

Helping others understand how to leverage open source to achieve goals

Member and Board diversity

- Increased member engagement in Nordix governance
- More opportunities, greater value
- As a European association, new member profiles become available
- New types of activity and collaborations across Europe are also possible

Next Steps

- Nordix Association is ready to incorporate:
 - <https://www.nordix.org/docs/DRAFT-articles-of-association.pdf>
 - A more meritocratic structure, aligned with European standards
- All existing mechanics and activities in Nordix can be sustained through the Association
- Further, our ability to engage educational and governmental groups is vastly improved

- Next steps:
 - Identify founding members through the founding member submission
 - Prepare documents of incorporation on November 15th
 - Early 2021 hold a virtual AGM and establish our Board of Directors and plans for the year

What do I need to do to join?

- Submit a founding member submission form
 - Optionally identify if you intend to secure a voting membership
- At the first AGM the Voting member agreements will be co-signed

NORDIX ASSOCIATION
FOUNDING MEMBER SUBMISSION

Thank you for your interest in joining Nordix Association AISBL as a founding member. We will need the following information from each new member.

Name of Member (Company or Organization): _____
Address: _____

Registered seat: _____
Company number: _____
Name of representative: _____
Membership category: Affiliate Silver Platinum

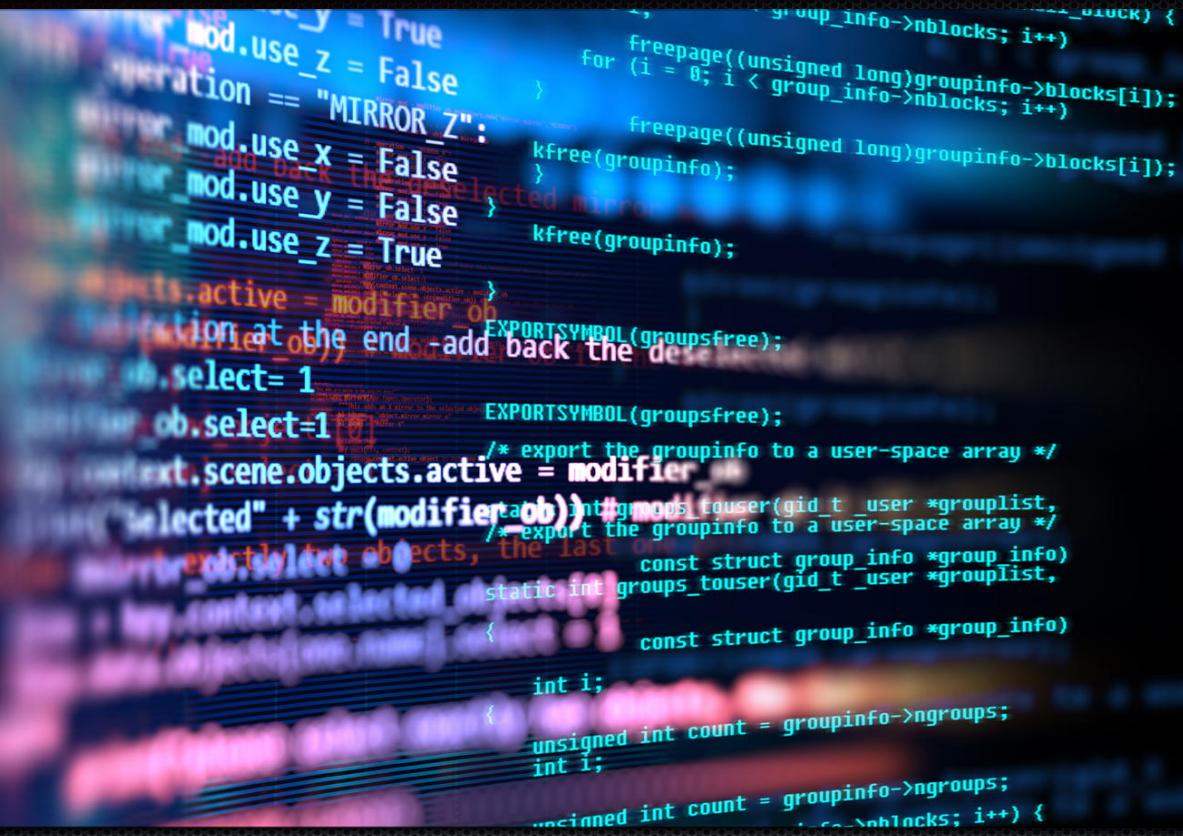

Members have the option to vote in the General Assembly meetings every year, but they may also choose to participate as a non-voting member. If you plan to vote, please review the voting member agreement you received with this form. You do not need to sign the agreement now, we will collect the signed agreements after the Association is established.

Membership type: Voting Non-voting

In addition, each Platinum Member will appoint one member of the Board of Directors, and Affiliate and Silver Members may optionally nominate one candidate for the Board of Directors. Platinum Members are required to complete the following section, but Affiliate and Silver Members may leave it blank. The person you select to serve on the Board of Directors may be the same person as the representative listed above, or it may be a different person.

Name of Director: _____
Address: _____

National number: _____
Copy of ID: (attach a scan or picture of the Director's passport or identity card)
